WORK EXPERIENCE

Full Stack developer

La Majeste Group

02/2022 - Present

Mumbai

- Proficiently developed and maintained full-stack applications using MongoDB, Express.js, React, and Node.js.
- Designed and implemented RESTful APIs for efficient communication between frontend and backend systems.
- Designed and developed robust, scalable, and efficient user interface components using React.js.
- Collaborated with cross-functional teams of product managers, designers, and backend developers to translate project requirements into technical specifications..
- Optimized application performance to ensure fast loading times and smooth user interactions.
- Conducted comprehensive testing of application components, identified and resolved bugs, and ensured high-quality deliverables.
- Participated in code reviews to maintain code quality and consistency across the development team.

Junior Software Engineer

Cysque Softwares

09/2021 - 02/2022

Noida

- Completed 70 hours of training on web development with React on Coursera.
- Enthusiastic front-end developer undergoing comprehensive training in HTML, CSS, JavaScript, and React.
- Collaborating with senior developers to learn and implement best practices in creating responsive and visually appealing user interfaces.
- Gaining hands-on experience in modern frontend frameworks and libraries, including React, to enhance web application development skills.
- Actively participating in code reviews, absorbing feedback, and contributing to team projects with a strong commitment to learning and growth.

SKILLS

JavaScript, HTML, CSS

React.js, Redux

Webpack, Babel, npm

PROJECTS

Erhem AI & Erhem Group & Erhem Mobile

- Developed a feature-rich Hybrid E-commerce, Business, Dynamic, and Static websites and Mobile applications Using **React Native** leveraging **React** and **Redux** for dynamic user interfaces and seamless state management.
- Integrated a robust **Node.js** backend to handle data processing, user authentication, and **API interactions** for enhanced functionality.
- Utilized **MongoDB** to establish a scalable database solution, ensuring efficient storage and retrieval of product and user information.
- Achieved optimal performance and user experience by implementing **responsive design** principles and efficient data handling throughout the platform

Easysolon

- Created a dynamic website using React and Redux for a seamless user experience.
- Developed a robust backend using Node.js and MongoDB to handle service data and user information securely.
- Implemented responsive design principles to ensure optimal performance across devices.
- Leveraged Redux for state management, enhancing application efficiency and scalability.
