Sachin Shakya

Full Stack Developer

Experienced MERN Stack Developer with 2 years of proven expertise in designing, developing, and deploying dynamic web applications. Adept at crafting efficient and scalable solutions that seamlessly integrate MongoDB, Express.js, React, and Node.js. Passionate about staying up-to-date with emerging technologies and trends in the web development landscape. Skilled in collaborating with cross-functional teams to deliver high-quality products within established timelines. Ready to leverage my proficiency and dedication to contribute to innovative projects and drive exceptional user experiences.

WORK EXPERIENCE

Full Stack Developer

La Majeste Group

02/2022 - Present   Mumbai

- Proficiently developed and maintained web applications using the MERN stack (MongoDB, Express.js, React, Node.js).
- Designed and developed user-centric web applications using React.js, enhancing user experiences and interface responsiveness.
- Collaborated closely with UI/UX designers and backend developers to translate project requirements into functional features.
- Implemented component-based architecture and Redux for efficient state management, ensuring seamless data flow.
- Conducted thorough testing, debugging, and performance optimization to deliver high-quality and fast-loading applications.
- Implemented user authentication and authorization mechanisms to enhance application security.
- Actively participated in code reviews and maintained codebase consistency, contributing to a collaborative and productive team environment.
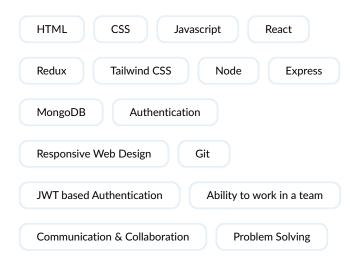

Junior Software Engineer

Cysque Softwares

09/2021 - 02/2022   Noida

- Completed 70 hours of training on web development with React on Coursera.
- Enthusiastic front-end developer undergoing comprehensive training in HTML, CSS, JavaScript, and React.
- Collaborating with senior developers to learn and implement best practices in creating responsive and visually appealing user interfaces.
- Gaining hands-on experience in modern frontend frameworks and libraries, including React, to enhance web application development skills.
- Actively participating in code reviews, absorbing feedback, and contributing to team projects with a strong commitment to learning and growth.

SKILLS

HTML · CSS · Javascript · React · Redux · Tailwind CSS · Node · Express · MongoDB · Authentication · Responsive Web Design · Git · JWT based Authentication · Ability to work in a team · Communication & Collaboration · Problem Solving

07/2013 - 07/2015   Mainpuri

PROJECTS

Erhem AI & Erhem Group & Erhem Mobile

- Developed a feature-rich Hybrid E-commerce, Business, Dynamic, and Static websites and Mobile applications Using **React Native** leveraging **React** and **Redux** for dynamic user interfaces and seamless state management.
- Integrated a robust**Node.js** backend to handle data processing, user authentication, and **API interactions** for enhanced functionality.
- Utilized **MongoDB** to establish a scalable database solution, ensuring efficient storage and retrieval of product and user information.
- Achieved optimal performance and user experience by implementing **responsive design** principles and efficient data handling throughout the platform

Easysolon

- Created a dynamic website using React and Redux for a seamless user experience.
- Developed a robust backend using Node.js and MongoDB to handle service data and user information securely.
- Implemented responsive design principles to ensure optimal performance across devices.
- Leveraged Redux for state management, enhancing application efficiency and scalability.
