Mainpuri, Uttar Pradesh, India

Experienced Full Stack MERN Developer with a passion for crafting seamless web applications. Proficient in MongoDB, Express, React, and Node.js, with a track record of delivering robust and user-centric solutions. Skilled in creating responsive interfaces, designing RESTful APIs, and collaborating effectively within cross-functional teams. Dedicated to maintaining high-quality code and staying updated with the latest development trends

WORK EXPERIENCE

Full Stack Developer
La Majeste Group

02/2022   Mumbai

- Proficiently developed and maintained web applications using the MERN stack (MongoDB, Express.js, React, Node.js).
- Designed and developed user-centric web applications using React.js, enhancing user experiences and interface responsiveness.
- Collaborated closely with UI/UX designers and backend developers to translate project requirements into functional features.
- Implemented component-based architecture and Redux for efficient state management, ensuring seamless data flow.
- Conducted thorough testing, debugging, and performance optimization to deliver high-quality and fast-loading applications.
- Implemented user authentication and authorization mechanisms to enhance application security.
- Actively participated in code reviews and maintained codebase consistency, contributing to a collaborative and productive team environment.

EDUCATION

B.tech
Chandigarh Univeristy

07/2018 - 07/2022   Chandigarh

Senior Secondary School
Shree Ekarshanand Aadarsh Inter Colleage

07/2015 - 07/2017   Mainpuri

Higher Secondary School
Gautam Budh Inter Collleage

07/2013 - 07/2015   Mainpuri

SKILLS

- JavaScript, HTML, CSS
- React.js, Redux
- Responsive Web Design
- Git, GitFlow
- Performance Optimization
- Testing Frameworks (Jest, Enzyme, React Testing Library)
- Node.js
- Express.js
- MongoDB
- RESTful APIs
- Tailwind CSS
- Authentication
- Communication & Collaboration
- Agile/Scrum Methodology
- Next.js

INTERNSHIPS

Junior Software Engineer

Cysque Software

09/2021 - 02/2022   Noida

- Completed 70 hours of training on web development with React on Coursera.
- Enthusiastic front-end developer undergoing comprehensive training in HTML, CSS, JavaScript, and React.
- Collaborating with senior developers to learn and implement best practices in creating responsive and visually appealing user interfaces.
- Gaining hands-on experience in modern frontend frameworks and libraries, including React, to enhance web application development skills.
- Actively participating in code reviews, absorbing feedback, and contributing to team projects with a strong commitment to learning and growth.

PROJECTS

Erhem AI & Erhem Group & Erhem Mobile

- Developed a feature-rich Hybrid E-commerce, Business, Dynamic, and Static websites and Mobile applications Using **React Native** leveraging **React** and **Redux** for dynamic user interfaces and seamless state management.
- Integrated a robust**Node.js** backend to handle data processing, user authentication, and **API interactions** for enhanced functionality.
- Utilized **MongoDB** to establish a scalable database solution, ensuring efficient storage and retrieval of product and user information.
- Achieved optimal performance and user experience by implementing **responsive design** principles and efficient data handling throughout the platform

Easysolon

- Created a dynamic website using React and Redux for a seamless user experience.
- Developed a robust backend using Node.js and MongoDB to handle service data and user information securely.
- Implemented responsive design principles to ensure optimal performance across devices.
- Leveraged Redux for state management, enhancing application efficiency and scalability.
